Summary :

Front-End Developer specializing in Angular with hands-on experience in building responsive and dynamic web applications. Proficient in integrating RESTful APIs, designing with Tailwind CSS and Figma, and utilizing modern web technologies. I am eager to contribute my frontend development skills and Engineering background to create impactful, user-centered web solution.

Projects:

1- Angular E-Commerce

[Live](#) | [Repo](#)

Shop.co is a powerful and user-friendly shopping platform designed to provide a seamless and efficient online shopping experience. Built a fully responsive and dynamic e-commerce platform using HTML, CSS, TypeScript, Tailwind CSS, Angular, and APIs.

2- Foodi Restaurant

[Live](#) | [Repo](#)

Built a fully responsive and dynamic restaurant platform using HTML, TypeScript, Tailwind CSS, Angular, and APIs. The UI/UX design was implemented using Figma.

3- Movies App

[Live](#) | [Repo](#)

A responsive and modern Angular application that utilizes The Movie Database (TMDB) API to display trending movies, popular TV shows. Using HTML, TypeScript, Tailwind CSS, Angular.

4- Notes App

[Live](#) | [Repo](#)

The Notes App is a responsive and dynamic app built using HTML, TypeScript, Tailwind CSS, and Angular that allows users to create, edit, organize, and delete notes efficiently.

5- BookMarker App

[Live](#) | [Repo](#)

The application allows users to add a website name and its URL. It validates the entered URL if it is valid, it saves it to local storage. The stored websites are then displayed in a structured table format.

6- Portfolio Landing page

[Live](#) | [Repo](#)

Built using HTML, CSS, and Bootstrap. It showcases a personal portfolio layout with a responsive that adapts seamlessly to different screen sizes.

Courses & Training :

Frontend Web Developer | Angular

Route Academy – sep 2024

Gained solid practical experience in HTML5, CSS, Bootstrap, JavaScript, TypeScript, Tailwind CSS and Angular.

I built projects that involved API integration using tools such as fetch, Axios, and Angular's HttpClient, with a focus on improving frontend functionality using modern development practices.

Technologies & Tools :

- **Frontend** : Angular 2+, HTML5 (semantic), CSS3, SCSS, Bootstrap, tailwind CSS, JavaScript, TypeScript, Angular Material, SEO
- **Version Control** : Git, GitHub.

Soft Skills :

- Strong organizational and time management skills.
- Communication Skills, Teamwork.
- Presentation and data analysis skills.
- Ability to accept and learn from criticism.

Education :

- Bachelor's of Engineering
- Military : exempted
- Faculty of Engineering, Alexandria University 2018 - 2023

Language :

- Arabic : (Native language)
- English : (Very good)
